- Evaluated student performance to determine promotion in rank

STRENGTHS

Hard-worker

Motivator & Leader

Decision maker

Strategic thinker

Quick Learn Capability

LANGUAGES

Spanish Catalan **English**

PROGRAMMING LAN-**GUAGES**

C++ **PL\SQL** OpenGL - API Java **Python**

Shell Scripting

TOOLS

MS Office Unity **Unreal Engine** Apex (Oracle)

EDUCATION

M.S. in Advnaced Programming for **AAA Video Games**

Universitat Politècnica de Catalunya - UPC BarcelonaTech - Talent School

October 2020 - November 2021

B.S. in Computer Science

Universitat Politècnica de Catalunya - UPC **BarcelonaTech**

September 2014 - April 2020

Civilian Instructor Course

International Krav Maga Federation - IKMF

September 2019 - October 2019

RELEVANT PROJECTS

Pentercat (in development)

- Game developed in C++ using Tessercat Engine (in house engine)
- https://github.com/PenteractStudios/Pentercat

Tesseract (in development)

- Game Engine developed in C++
- O https://github.com/PenteractStudios/Tesseract

Path Tracer

- Implemented in C++ for my Bachelor Degree Thesis
- (7) https://github.com/Jordi-Gil/Path-Tracer

INTEREST

Develop 3D applications

• High motivation to learn to develop 3D applications (e.g. video games, game engines, medical applications, architectural applications, design, etc.).

COURSES

Introduction to Android - JEDI Academy

Universitat Politècnica de Catalunya - UPC BarcelonaTech

February 2016 - February 2016

• Introduction to the development of applications in the Android operating system.

Introduction to the development of games with Unity3D - VGAFIB

Universitat Politècnica de Catalunya - UPC BarcelonaTech

June 2016 - June 2016

• In this course you will start developing video games with Unity3D.

Design and 3D printing - JEDI Academy

Universitat Politècnica de Catalunya - UPC BarcelonaTech

🛗 February 2017 – February 2017

• Introduction to 3D model design and 3D printing.
